ASX Announcement
17 December 2015

SINGIDA PROJECT, UPDATE

Tanga Resources Limited (**ASX : TRL**) wishes to update investors on exploration activities being carried out at the Singida Project, Tanzania.

The company announces that the first pass Reverse Circulation (RC) Drilling Program at the Winston prospect has been completed. The photo above is the rig on site.

A total of five drill holes were put down for a total meterage of 806m.

The program was cut short because of heavy monsoonal rains and the looming Xmas break. Work is expected to restart in the New Year.

Drilling samples have been sent for assay results which will be reported once received.
