ASX ANNOUNCEMENT

“Drilling commences at Winston Target; Singida Project”

Tanga Resources Ltd is pleased to announce that reverse circulation/diamond drilling has commenced at the Winston prospect, Singida project in Tanzania.

Reverse Circulation (“RC”) precollars and diamond tails are planned for a total meterage of ~2000m.

This drilling is targeted at both the down plunge extensions and potential strike extensions of the previously announced (see ASX 19th January 2016) high grade gold intersections at Winston. Results will be released as appropriate.

Chairman, Mr John Jones said it is pleasing to have the rig back on site so quickly after completing a successful capital raising of \$3.4 million. We have also established a commercial office in Dar es Salaam. The Tanga Team on site are also working closely with the local community for a quality water supply.

Track Mounted Multi-purpose RC/Diamond Rig at Winston

Community Services

Tanga Resources has also identified a number of water bore sites to be tested with a view of upgrading the water supply and quality for the nearby community and the Tanga Resources Exploration camp.

Competent Person Statement:

The information in this report relates to Exploration Results based on information compiled by John Stockley who is a Competent Person and member of the Australian Institute of Geoscientists (AIG). John Stockley is a Director of Tanga Resources Ltd.

John Stockley has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity they have undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for the Reporting of Exploration Results, Mineral Resources, and Ore Reserves". John Stockley consents to the inclusion in the report of the matters based on his information in the form and context which it appears.
